Comments:

Careful processing procedures, high standards of quality control and modern equipment are used in the cleaning, processing and packaging of this product. However, beans are a natural agriculture product. It is suggested that you examine the contents carefully. Sort out any foreign substances, such as small pebbles, stems or soil particles. It is recommended to rinse with clean potable water before cooking to assure maximum wholesomeness. This product is not ready-to-eat and must be thoroughly cooked before eating to prevent illness from bacteria.
